## Magic New Year time

New Year is magic year. All wishes come true. Father Frost and Snow Maiden do their best to fulfill them. It's so great that children believe in existence of Father Frost, moreover they write letters Father Frost asking their wills. If father Frost fulfilled your wishes what about would you ask? Let's ask the students of the 5<sup>th</sup> forms! In order to it we have conducted a school New Year survey. Some students came up to the question with humor, it's so ridiculous...

The most popular wish among the students is the desire to **purchase your own computer** - 12 people want it;  
 the second most popular will is dream of **having skates** - 11 students;  
 there were also real students who want to **study well** - this wish told by 10 participants of the survey;  
 6 students **wish of happiness** for everyone;  
 the rest of the students want to **update their wardrobe** and expressed their desire to **become real sporty or famous sportsmen** as a hockey player, a football player.

We also have special wishes: someone wants checkers, **GPS navigator**, and even **flowers**; the nicest wish is the desire to **have a younger brother**;

May your every wish come true! Believe in Father Frost. But it's better to say trust in the Father Frost but rely on yourself!

### In our JANUARY issue

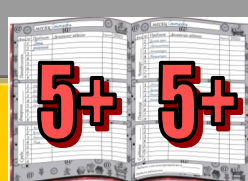

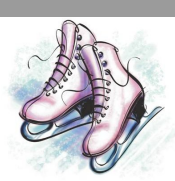

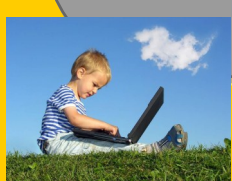

*What was school party like this year? What performance did the students prepare? And how successful did they act?*

*What do our students think about spent winter holidays?*

*Especial new year wishes to our lovely readers*

*Gossip girl's section*

*A plenty of questions, so the best way to find out all of it is reading our newspaper!*

### My winter holidays.

I spent great winter holidays. With my parents I went to Kazan. Can you imagine, in the coldest season of the year we had a fun in the water park. It was so interesting, beyond all the expectations. By the way my family always go to the water park during winter holidays. After water park shopping is one of the most pleasant things that we can do in Kazan.

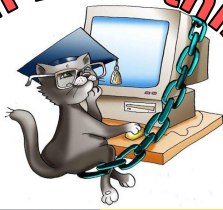

I celebrated New Year with my friends. This New Year was the best. It was very cool, we walked and took a lot of pictures. Desire to come true wishes, gave each other different New Year gifts.

When I had some free time I enjoyed helping my mother. Skating, spending time with my friends, certainly I liked my winter holidays. I shall never forget them. It's a pity they finished very soon.

### My winter holidays

I spent my winter vacation funny and interesting . Every day I went with my friends to the Ice Palace. I

had a good time there. I enjoyed a lot of walking in the street , skating , going to visit my grandmother. We decorated the New Year tree with different toys and hung New Year lights. As for New year I met it with my parents . It was exciting. After New Year, I started to do my homework that we were asked for to do during winter break. With my sister we sleighed very much. (During the holidays I spy on her younger sister . Together with her rolling down the hills). I still enjoyed surfing the internet. My holidays were great. I was in different places, and just work was a good rest!

Make your dreams blossom and make you happy in many years. Have a wonderful New year!

## Winter miracles!

*Winter. It is snowing slowly in the street. Snowflakes are dancing an original waltz. It is wonderful! You feel as you are in a winter fairy tale. All of us love winter holidays. In my opinion celebration of New Year with the families and friends is the most wonderful and favourite holidays. We enjoy this holiday, we receive and present gifts... Especially children. It's so great that children believe in existence of Father Frost. Moreover they write letters wishing to have New Year presents. On the New Year's eve all people think about their wills and wish each other good luck, happiness, well-being! May your every wish come true. Be happy!!!*

*Iluza Kh., grade 8*

## Unforgettable 2011

Before we began to go to school after winter break we had entered a New Year. Going to school during the last days of December was full of New Year's mood. Every day was special and magical. We gave each other presents, were dancing till we drop, singing, took part in school activities, fell into love and shocked friends with bright performances. We really went crazy with joy and strong emotions, and even the people who we hadn't communicated and relationships with them were bad became our best friends.

Those days were the best, so many brilliant and beautiful memories which make us feel happy. I will never forget those days! Thank you 2011, you are unforgettable!

*Kamila A., gradee 8*

*Live with strong emotions*

**New Year is my favorite holiday.** Every family, every organization, every country has its own way to celebrate it. Our school is not an exception. Every year we (student of 8-11<sup>th</sup> grade) get together. Each form shows a concert programme after common performance. It can be a dance and something other. The students of the some forms sing songs, joke, organize games and so on.

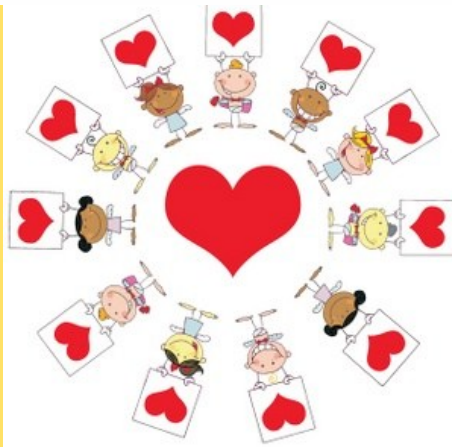

*This year I especially liked a dance of boys from 10<sup>th</sup> form. I think anybody, who had seen it felt joy, gladness. Even one teacher said us that this dance was very creative, fascinating. Also I was amused by dance of 11<sup>th</sup> form. Also it was suitable to our common performance.*

*And I want to wish you success in your new beginnings. Let gladness, happy moment will be more in your life.*

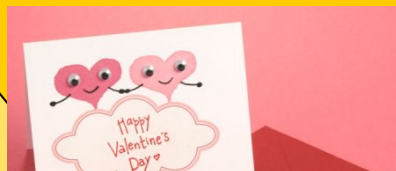

*Sumbel G., garde 10*

**NEW!**

**LOVE! HAPPINESS! BEAUTY!**  
There are not so many days in a year when we pronounce these pleasant words. The 14th of February is coming. It is an excellent chance to plunge into the atmosphere of love and camaraderie, to practice the use of some pleasant words and expressions on this special occasion.

January was a month full of gossip. I want you to provide with a few of them:

1. Dina Raifovna announced about the beginning of the new competition and now two groups of our school shoot a video and write the script for the play. And we can only wish them the tide of inspiration and good luck!!!

2. This month the intellectual game "Erudite" has not been held - so bummer. Let's remind, that the theme of the month - classical music.

3. A new English teacher appeared in our school. It is a pity that only for little time, well, welcome!

4. Here is someone who is a DJ and this month was rather successful for him. He has presented on the Internet three new mixes! Well done, we wish you not to lose the inspiration!

5. Some of our students shone by their knowledge in the sky of the land of olympiads and some of them keep on doing it now. They are bright stars brightening our school mind. We feel a great pride of thinking of them. That's the way!
